Hello Laura,

Attached our the EPA and DERR comments on the Workplan and SAP. Please let me know if you have any questions.

Thanks,

Kathy

Subject: NWOD Seg 2A Design Studies and Work Plan

Kathy, Liz, and Bill,

The NWOD Working Group has completed numerous studies as part of the design of the Segment 2A sediment removal project. Those reports are being mailed to you in two submittals. Last week EarthFax mailed EPA and UDEQ a binder with the following five design reports (EarthFax transmittal letter attached):

- Segments 2 and 3 Wetland Investigation
- Segments 2 and 3 Environmental Borings Design Study
- Segment 2A Supplemental Environmental Borings
- Segment 2A Geotechnical Design Study
- Expanded Evaluation of Hydrologic and Hydraulic Conditions

This week DOF will be mailing you the sediment characterization study completed for Segments 2 and 3 by SEE.

We will present the primary findings of these studies as they relate to the Segment 2A design during our meeting on April 11, 2012. In the meantime let me know if you have any questions or comments on the reports.

I am also working on a RD/RA Work Plan for Segment 2A that will be sent to you by the end of the month. It is intended to be the document that EPA would review and approve for the Segment 2A work.
